

Rare Carat

Ring Sizing Guide

Before you start:

Print this Guide with page scaling set to 100%. Confirm you've printed this right!

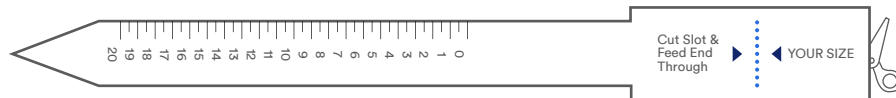

Use a ruler to measure the lines above and make sure it all matches

How to find your ring size

Option 1

- Print this sizer.
- Wrap it snug, through the slot, and check the size marked.

Option 2

- Use a string or thin piece of paper.
- Wrap it snug, and use a pen to mark where the end is.
- Lay it flat and measure it using the ring sizer above.

RING SIZE TO mm
(circumference)

Option 3

- Match the inside of an existing ring to one of these sizes:

If the ring falls between two different ring sizes, we suggest going with the higher size or asking if a quarter size is possible. Consider width. The wider the band, the tighter it may feel. You may need to go up by a half size.
